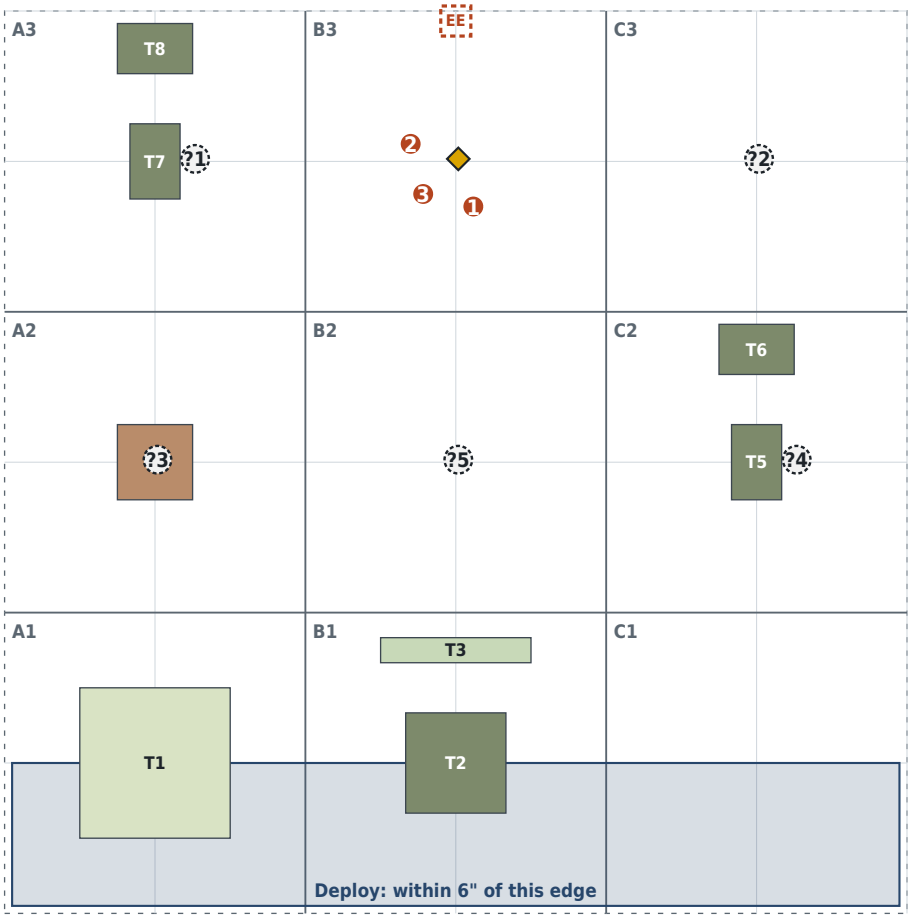
Seize data or cargo: Desert, badlands, mission 11

Imperator Black mission · rules v0.5 · chapter 13 · land · threat tier 3 · seed 11 · solo

Tasking. Seize data or cargo. Reach the objective, take what it holds, and get it out.

Situation. Freespace Solutions and Contractors hold a desert position. Data or cargo the force needs is in sector B3. The holders will move it soon.



Area terrain · Crater or trench · Low wall or hedge · Solid or building
Enemy model · Deployment · Objective · Contact chip (?n)
Enemy entry (EE)

Each grid square is 6"; heavier lines mark the 12" sectors (A1 bottom left). Board 36" × 36". The player edge is the bottom. Pieces are footprints from the sector rolls: place your own terrain to match. Contact chips (?n) are hidden contacts.

Objective. Sector B3. A model in base contact may Interact to take it: automatic for a model with a hacking rig (data) or Physique 2 or more (cargo); 2d6 + Tech (data) or Physique (cargo), 8+, for anyone else. Data travels with the model that copied it; cargo is carried, and the carrier has −2" Move. If the carrier goes Down, a model in base contact may take it with an Interact.

Opposition. Freespace Solutions and Contractors, threat tier 3. Guard (known): Borz Bratva team (3 models), at the objective, Unaware. Contacts (unknown): 5 chips.

Ground. Desert, badlands, 36" × 36" table (3 × 3 sectors). Conditions: Clear: No effect.

Complication. Reinforced: One more contact than the tier lists.

Extraction and time. Out by the player's own edge. Enemy entry and exit: middle of the far edge. Small mission: 20 minutes, clock die d4. Check-ins every 5 minutes from minute 10. Alert track starts at 0.

Taking it. A model in base contact may Interact to take it: automatic for a model with a hacking rig (data) or Physique 2 or more (cargo); 2d6 + Tech (data) or Physique (cargo), 8+, for anyone else. Data travels with the model that copied it; cargo is carried, and the carrier has −2" Move. If the carrier goes Down, a model in base contact may take it with an Interact.

Lockdown (alert 6). The enemy locks it down: taking the objective now needs two successful Interacts, and a Hack of Secured (9+) first if it is data.

Grade	Result
Decisive	Objective extracted and no player model Dead.
Marginal	Objective extracted.
Failure	Objective not extracted when time runs out.

Alert track and clock

Raises: Loud noise (chapter 10) +1; Very loud noise +2; An element raises the alarm +1; Each check-in the clock reaches or passes (a check-in is missed) +1. Starts at 0.

At 2: Contacts move: at the end of each round, every contact moves 6" toward the marker (or toward the player entry if there is no marker), by the shortest route. Unrevealed elements become Alerted when revealed.
At 4: Reinforcements: at the end of the round, the tier's reinforcement element arrives at the enemy's entry, Alerted.
At 6: Lockdown: the mission type's lockdown happens at the end of the round.

Clock: 20 minutes, clock die d4. At the end of each round roll the clock die: that many minutes pass; then resolve the alert track. Check-ins at minute 10 and every 5 after: each one reached or passed raises the alert by 1. Time runs out at the limit: the mission ends.

Contacts (threat tier 3)

1. A contact is revealed when a player model can see it, or ends a Move within 3" of it. Roll on the tier's contact table.
2. Place the element with its first model on the chip and the rest within 2", in cover where they can be; then remove the chip.
3. A revealed element is Unaware while the alert track is below 2, Alerted from 2 on. Either way, newly placed models cannot react until the current activation ends.
4. A contact that moves into sight of a player model is revealed at once.

d6	Contact	Models	Behavior
1	Booby trap	A tripwire charge: resolve a frag grenade centred on the chip (2d8, radius 2"). It is Very loud. Remove the chip.	—
2	Collections enforcers	3 × Collections Enforcer	Aggressive
