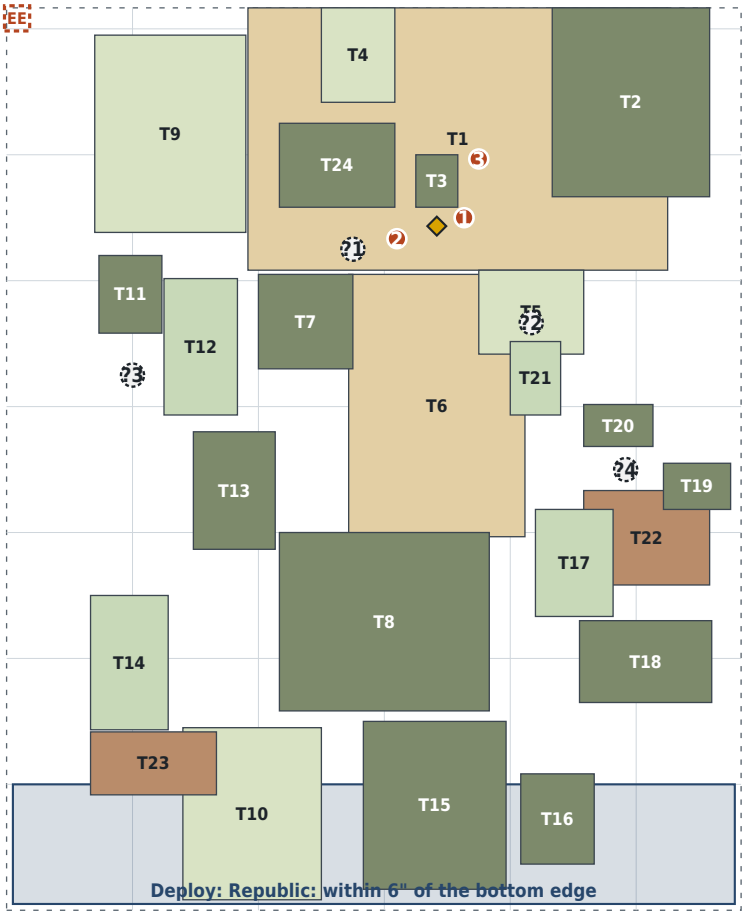
Foundry Moon 2A: Kraken's Convoy

Imperator Black short arc · Foundry Moon · mission 2A of 3 · rules v0.5 · land · Separatist Alliance, threat tier 2 · solo

Tasking. Capture a high-value target: Kraken's memory core.

Situation. With the grid down, a gunship spotted Kraken's convoy halted on the mesa above the spire flats: its AAT has thrown a repulsor, and the super tactical droid is at the old relay post, re-routing the moon's droids by hand. Kraken runs the foundry's defence. Its memory core holds the codes of the ship that carries the foundry's output.



Each grid square is 6". RJ's 35" × 43" desert table, played lengthwise, as in Gym 2: the Republic enters from the bottom edge, the mesa is at the top. The mesa and central ridge are one level up (sheer sides; the mesa's west slope beside the spire field is open ground); the rock shelf is two levels. Enemy positions are model centres.

Objective. Kraken, at the relay post on the mesa. Kraken is the HVT. A droid cannot be taken prisoner: put Kraken Down, or destroy it, then a model in base contact pulls its memory core with an Interact. The core travels with the model that took it, as data (chapter 13, seize); if that model goes Down, a model in base contact may take it with an Interact. Extract it by the Republic's edge.

Opposition. Separatist Alliance, threat tier 2. Guard (known): Kraken and two B2 super battle droids, at the relay post, Unaware. Contacts (unknown): 4 chips. Reinforcements: a B2 squad.

Ground. RJ's desert table (Gym 2), with the AAT on the mesa. Conditions: roll (chapter 12).

Complication. None, but see From Refinery Nine (Special rules).

Extraction and time. Out by the Republic's own edge. Enemy entry and exit: the north-west corner. Small mission: 20 minutes, clock die d4. Check-ins every 5 minutes from minute 10. Alert track starts at 0 (1 after a Marginal mission 1).

Force. Republic: up to 300 TV and 7 models from the soldiers fit for duty (chapter 14, short arcs).

Capture a high-value target

Taking it. Kraken is the HVT. A droid cannot be taken prisoner: put Kraken Down, or destroy it, then a model in base contact pulls its memory core with an Interact. The core travels with the model that took it, as data (chapter 13, seize); if that model goes Down, a model in base contact may take it with an Interact. Extract it by the Republic's edge.

Lockdown (alert 6). Kraken runs: from now on it activates first each enemy turn, using the Handler profile's escape line toward the enemy's exit (the north-west corner). If it leaves the board, it has escaped. It also runs once the alert track reaches 4 (see Special rules).

Grade	Result
Decisive	Kraken's memory core extracted, and no Republic model Dead.
Marginal	Kraken's memory core extracted, or Kraken destroyed.
Failure	Kraken escaped, or still active when time runs out.

After the mission

Grade	Next
Decisive	Mission 3, The Foundry Ship. The core holds the frigate's codes: before setting up, remove two contact chips of your choice.
Marginal	Mission 3, The Foundry Ship. Some codes survived: before setting up, remove one contact chip of your choice.
Failure	Mission 3, The Foundry Ship. Kraken reaches the frigate and warns it: mission 3's alert track starts 1 higher.

Special rules

From Refinery Nine. If mission 1 was Decisive, the Republic wins initiative in round 1. If it was Marginal, the alert track starts at 1.

The convoy is leaving. Kraken runs (as the lockdown) from the end of the round in which the alert track reaches 4, as well as at 6.

Battle computer. While Kraken stands, every Separatist element within 18" of it uses the Tactical profile with the Veteran drill (Battle computer 2): no line of sight needed.

Getting onto the mesa. The mesa is one level up. Climbing a sheer face costs 2" (chapter 12); the west slope beside the spire field (T9) is open ground. A Leap ignores the climb.

Alert track and clock

Raises: Loud noise (chapter 10) +1; Very loud noise +2; An element raises the alarm +1; Each check-in the clock reaches or passes (a check-in is missed) +1. Starts at 0.

At 2: Contacts move: at the end of each round, every contact moves 6" toward the marker (or toward the player entry if there is no marker), by the shortest route. Unrevealed elements become Alerted when revealed.

At 4: Reinforcements: at the end of the round, the tier's reinforcement element arrives at the enemy's entry, Alerted.

At 6: Lockdown: the mission type's lockdown happens at the end of the round.

Clock: 20 minutes, clock die d4. At the end of each round roll the clock die: that many minutes pass; then resolve the alert track. Check-ins at minute 10 and every 5 after: each one reached or passed raises the alert by 1. Time runs out at the limit: the mission ends.

Contacts (threat tier 2)

1. A contact is revealed when a player model can see it, or ends a Move within 3" of it. Roll on the tier's contact table.
2. Place the element with its first model on the chip and the rest within 2", in cover where they can be; then remove the chip.
3. A revealed element is Unaware while the alert track is below 2, Alerted from 2 on. Either way, newly placed models cannot react until the current activation ends.
4. A contact that moves into sight of a player model is revealed at once.

d6	Contact	Models	Behavior
1	False alarm	Nothing there: crew who fled, a ventilation fan, a stray animal. Remove the chip.	—
2	B1 battle droid section	3 × B1 Battle Droid, B1 Heavy Weapons Droid	Battle droid
3	B1 battle droid section	3 × B1 Battle Droid, B1 Heavy Weapons Droid	Battle droid
4	B2 super battle droid squad	2 × B2 Super Battle Droid, B2 Heavy Weapons Droid	Battle droid
5	Droideka pair	2 × Droideka	Sentry

6	Tactical droid and escort	T-series Tactical Droid, 2 × B1 Battle Droid	Tactical

The enemy

Run the enemy with chapter 10 and the behavior cards. The enemy's objective, for tie-breakers, is the mission objective.

Element	When	Behavior	Drill
Kraken and bodyguard	Guard: models 1, 2, 3	Tactical	Fire and manoeuvre
B1 battle droid section	Contact	Battle droid	No drill
B2 super battle droid squad	Contact; Reinforcements (alert 4), at the enemy entry	Battle droid	Fire and manoeuvre
Droideka pair	Contact	Sentry	Fire and manoeuvre
Tactical droid and escort	Contact	Tactical	No drill

Terrain

Map	Piece	Cover	Footprint	Suggested terrain
T1	Mesa	Hill	20" × 12.5"	The dark mesa with the relay. One level up; sheer sides, except the gentle west slope beside the spire field.
T2	Rock shelf	Heavy	7.5" × 9"	The high rock shelf at the mesa's east end: two levels, sheer. Blocks sight across the mesa top.
T3	Relay mast	Heavy	2" × 2.5"	The relay tower, now a Separatist signal post. Solid: Heavy cover, blocks sight.
T4	Camo netting	Area	3.5" × 4.5"	Camouflage netting over a tent: scrub (Light cover inside; sight through no more than 3").
T5	Dug-out	Area	5" × 4"	Netting over the dug-out door at the mesa's foot: scrub. The Pointmen come out here.
T6	Central ridge	Hill	8.4" × 12.5"	The long tan ridge: one level, sheer sides. Light cover behind its crest against shooters below.
T7	Great spire	Heavy	4.5" × 4.5"	The tall spire at the mesa's foot: solid, blocks sight.
T8	Dark boulder	Heavy	10" × 8.5"	The large dark rock: solid, blocks sight; too steep to climb.
T9	Spire field	Area	7.2" × 9.4"	The round base with small spires: dense woods (Light cover inside, sight no more than 1" through, difficult ground).
T10	Spire field	Area	6.6" × 8.2"	The second round spire base: dense woods, as T9.
T11	Spire	Heavy	3" × 3.7"	Small stacked spire: solid.
T12	Rock spine	Light	3.5" × 6.5"	The low curved rock line west of the ridge: low wall (Heavy cover within 1" behind it; obstacle).
T13	Rock stack	Heavy	3.9" × 5.6"	The stacked rock outcrop west of centre: solid.
T14	Rock spine	Light	3.7" × 6.4"	The curved rock line on the west side: low wall.
T15	Spire mound	Heavy	6.8" × 8"	The big spire on its mound south of the boulder: solid.
T16	Spire	Heavy	3.5" × 4.3"	Small spire: solid.
T17	Rock spine	Light	3.7" × 5.1"	The upright rock line east of the boulder: low wall.
T18	Spire ridge	Heavy	6.3" × 3.9"	The long leaning spire on the east side: solid.
T19	Spire	Heavy	3.2" × 2.2"	Small spire on the east edge: solid.
T20	Spire	Heavy	3.3" × 2"	Small spire below the mesa: solid.
T21	Rock spine	Light	2.4" × 3.5"	Short rock line by the dug-out: low wall.
T22	Crevice	Ditch	6" × 4.5"	The brown crevice printed on the mat (east): a ditch (Heavy cover inside against shooters outside; getting in or out is an obstacle).
T23	Crevice	Ditch	6" × 3"	The brown crevice printed on the mat (west): a ditch.
T24	AAT	Heavy	5.5" × 4"	The broken-down AAT on the mesa top (any tank or wreck): solid, Heavy cover, blocks sight.

Light cover: at least a third of the model hidden. Heavy cover: at least half hidden behind solid material. Exact pieces don't matter; keep the footprint and height close.

Mission dashboard

Foundry Moon 2A: Kraken's Convoy

Imperator Black · chapter 13 · in a dry-erase sleeve, mark the tracks and fill the boxes as you play.

Alert track

0	1	2	3	4	5	6
start		Contacts move		Reinforcements		Lockdown

Raises: Loud +1 · Very loud +2 · alarm raised +1 · each check-in +1. Thresholds take effect once, at the end of the round.

☐ 2: contacts move 6" a round	☐ 4: reinforcements arrive	☐ 6: lockdown

Mission clock: 20 minutes, clock die d4

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20

Shaded red: check-ins (alert +1 when reached or passed). Grey: time runs out. End of each round: roll d4, move the clock, then resolve the alert track.

Rounds played

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15

Objectives: Capture a high-value target
