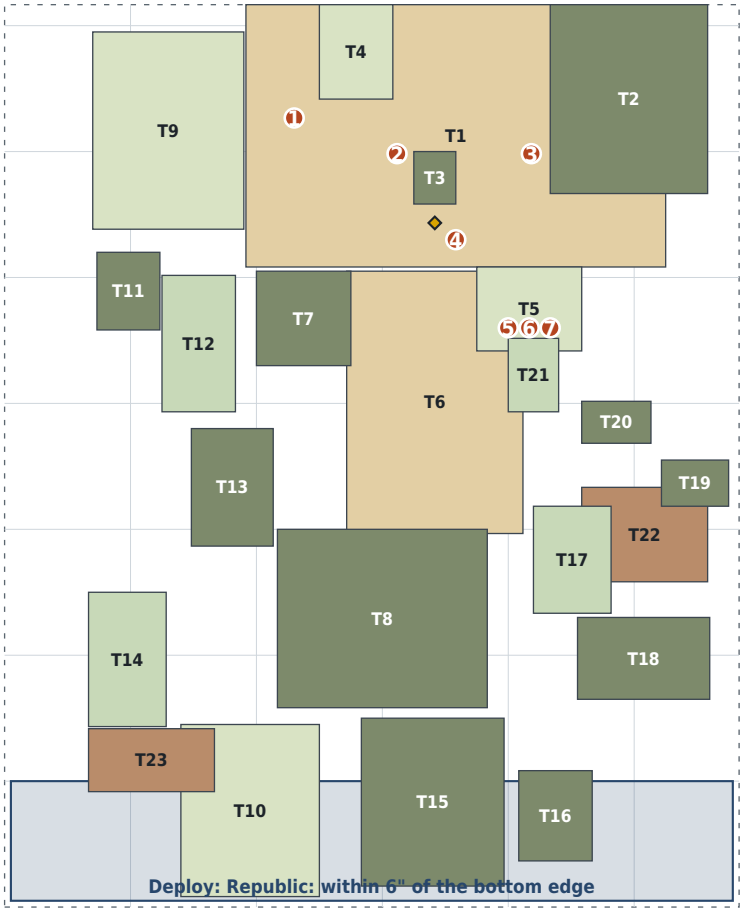
Gym 2: Silence the Relay

Imperator Black land gym scenario · rules v0.5 · solo · about 60–90 minutes

A UN Force Command reserve fireteam holds a comms relay on a mesa above the spire flats. While it stands, the Authority can see every Republic move in the sector. A clone squad, with Commander Ahsoka Tano, has worked through the spires at first light to take it down. Pointman inorganics wait in a dug-out under the mesa, ready to answer the alarm.



Raised ground · Area terrain · Ditch or crevice · Light cover
Heavy cover / solid · Enemy model · Deployment · Objective

Each grid square is 6". Board 35" × 43", played lengthwise: the Republic enters from the bottom edge, the mesa is at the top. Enemy positions are model centres. Pieces are drawn as rough footprints from the photo.

Galactic Republic (6)

- Ahsoka Tano (Commander)
- Clone Sergeant (Sergeant)
- Clone Trooper (Trooper)
- Clone Trooper (Trooper)
- Clone Trooper (Trooper)
- Clone Heavy Trooper (Heavy (Z-6))

UN Force Command (7)

- 1. 3rd Battalion Rifleman (Rifle): Unaware
- 2. 3rd Battalion Rifleman (Rifle): Unaware
- 3. 3rd Battalion AT Specialist (AT launcher): Unaware
- 4. 3rd Battalion Rifleman (Rifle): Unaware, watching the flats
- 5. Pointman (Rifle): Off table: arrives at the dug-out when the alarm is raised
- 6. Pointman (Rifle): Off table: arrives with model 5
- 7. Pointman SAW (LMG): Off table: arrives with model 5

Setup

- Use the table as photographed; the map and Terrain table say what each piece counts as (chapter 12).
- Enemy models 1–4 on the mesa as marked. Models 5–7 start off the table.
- Roll for conditions (chapter 12) before deployment.
- The Republic deploys wholly within 6" of the bottom edge. Ahsoka may deploy anywhere in that zone.

Terrain

No walls or doors. The mesa and the central ridge are raised ground, one level (3") high; the rock shelf at the mesa's east end is two levels. Climbing any sheer face costs 2" per level (chapter 12).

Map	Piece	Cover	Footprint	Suggested terrain
T1	Mesa	Hill	20" × 12.5"	The dark mesa with the relay. One level up; sheer sides, except the gentle west slope beside the spire field.
T2	Rock shelf	Heavy	7.5" × 9"	The high rock shelf at the mesa's east end: two levels, sheer. Blocks sight across the mesa top.
T3	Comms relay	Heavy	2" × 2.5"	The relay tower. Solid: Heavy cover, blocks sight. The objective.
T4	Camo netting	Area	3.5" × 4.5"	Camouflage netting over a tent: scrub (Light cover inside; sight through no more than 3").
T5	Dug-out	Area	5" × 4"	Netting over the dug-out door at the mesa's foot: scrub. The Pointmen come out here.
T6	Central ridge	Hill	8.4" × 12.5"	The long tan ridge: one level, sheer sides. Light cover behind its crest against shooters below.
T7	Great spire	Heavy	4.5" × 4.5"	The tall spire at the mesa's foot: solid, blocks sight.
T8	Dark boulder	Heavy	10" × 8.5"	The large dark rock: solid, blocks sight; too steep to climb.
T9	Spire field	Area	7.2" × 9.4"	The round base with small spires: dense woods (Light cover inside, sight no more than 1" through, difficult ground).
T10	Spire field	Area	6.6" × 8.2"	The second round spire base: dense woods, as T9.
T11	Spire	Heavy	3" × 3.7"	Small stacked spire: solid.
T12	Rock spine	Light	3.5" × 6.5"	The low curved rock line west of the ridge: low wall (Heavy cover within 1" behind it; obstacle).
T13	Rock stack	Heavy	3.9" × 5.6"	The stacked rock outcrop west of centre: solid.
T14	Rock spine	Light	3.7" × 6.4"	The curved rock line on the west side: low wall.
T15	Spire mound	Heavy	6.8" × 8"	The big spire on its mound south of the boulder: solid.
T16	Spire	Heavy	3.5" × 4.3"	Small spire: solid.
T17	Rock spine	Light	3.7" × 5.1"	The upright rock line east of the boulder: low wall.
T18	Spire ridge	Heavy	6.3" × 3.9"	The long leaning spire on the east side: solid.
T19	Spire	Heavy	3.2" × 2.2"	Small spire on the east edge: solid.
T20	Spire	Heavy	3.3" × 2"	Small spire below the mesa: solid.
T21	Rock spine	Light	2.4" × 3.5"	Short rock line by the dug-out: low wall.
T22	Crevice	Ditch	6" × 4.5"	The brown crevice printed on the mat (east): a ditch (Heavy cover inside against shooters outside; getting in or out is an obstacle).
T23	Crevice	Ditch	6" × 3"	The brown crevice printed on the mat (west): a ditch.

Light cover: at least a third of the model hidden. Heavy cover: at least half hidden behind solid material. Exact pieces don't matter; keep the footprint and height close.

Special rules

Dawn approach. The Republic wins initiative in round 1 automatically.

The enemy. Run the enemy with chapter 10 and the behavior cards. The reserve fireteam (1–4) is Tactical and starts Unaware; the enemy's objective, for tie-breakers, is the relay. The Pointmen (5–7) are Aggressive: at the end of the round in which the alarm is raised, place them within 2" of the dug-out (T5), Alerted. They activate from the next round.

Silence the relay. A Republic model in base contact with the relay may Interact to set a charge on it (one action; Very loud when it blows). The relay is destroyed at the end of that round, unless an enemy model is in base contact with it then.

Getting onto the mesa. The mesa is one level up. Climbing a sheer face costs 2" (chapter 12); the west slope beside the spire field (T9) is open ground. Ahsoka's Leap ignores the climb.

Range bands. Play the current rules (8+, short range 0, beyond −1, beyond double −2). Republic clones are Shoot 2, the UN fireteam Shoot 2.

Victory

Length: 8 rounds. **Goal:** Destroy the relay.

Decisive: Relay destroyed and the reserve fireteam broken or out of the fight, with no Republic model Dead.
Marginal: Relay destroyed.
Failure: Relay standing at the end of round 8, or the Republic squad breaks.

The enemy

Run the enemy with chapter 10 and the behavior cards: read each list top-down and take the first line that applies.

Element	Models	Behavior	Drill
UN reserve fireteam	1, 2, 3, 4	Tactical	Fire and manoeuvre
UN Pointmen	5, 6, 7	Aggressive	Fire and manoeuvre

Watch for, and log afterwards

• Did the terrain types (area, solid, raised, ditch) cover every piece without a judgment call?
• Did the land wording on the behavior cards (approach, area, exit) work? Count judgment calls per round.
• Does Loud noise at 24" wake the mesa at the right time?
• Close combat: how did Ahsoka do, and did Deflect feel right against a Z-6 burst or rifle volley?
• Aggressive Pointmen and the Tactical fireteam: did they behave differently in a useful way?
• Shoot 2 against Shoot 2 in the open: too many misses, or about right?

Log the game with docs/playtests/TEMPLATE.md.
